## PROJECTS

### The Neighborhood

December 2021 | Python, Django, JavaScript, HTML, CSS, heroku  
Code:[https://github.com/ezekielkibiego/The\\_Neighborhood](https://github.com/ezekielkibiego/The_Neighborhood)

This is a Web Application that allows users, after signing in, join a neighborhood as well as add a neighborhood, add businesses and update posts on the occurrences of different neighborhoods.

### News-Hub

Oct 2021 | Python, Flask, HTML, CSS, Heroku  
Code:<https://github.com/ezekielkibiego/News-Hub>

This is a News Hub application that consumes News Api hence the user is able to read news from top news sources around the world by a click of a button.

### Github-Search

2021 | Angular, Typescript, JavaScript, HTML, CSS

Code:<https://github.com/GDG-GANDHINAGAR/devfest-19>

This is a GitHub Search application that displays GitHub user data and then allows one to search any GitHub user and Repositories to see given information about that User or a repository(s).
